About This Game

Dog In A Box is a virtual reality dog building game, allowing the player to step into the shoes of a travelling toy dog maker. As you step into the shoes of the toy maker, you should expect to receive unexpected orders for toy dogs in often strange locations.

Things you can expect as a Dog Toy Maker

- Fast paced dog making!

- Three fun environments!

- Weird and wonderful dog orders!

- A collection of all the dogs you have made in your career!

**Network:** Broadband Internet connection

Storage: 500 MB available space

Additional Notes: Requires a HTC Vive or Oculus Rift

English

Made a corgi with 5 heads

11\/10 would recommend. This game is absolute garbage. Go and buy Cat Sorter VR instead, which is clearly where this idea was taken from, but fails to deliver in practically every area that made Cat Sorter VR enjoyable.

Cat Sorter VR was fun because it was full of bizarre bodyparts from different creatures that you could stick onto your cat. In this game, there are 3 boxes, and all those boxes contain are normal dog heads, normal dog legs, and normal dog tails. So if you want to pay $10 AUD to stick a head, some legs and a tail on a dog body, go for it, but for 99.9% of people, this game will be a tremendous waste of your money.

Hard pass.
